University of Tennessee Health Science Center – Office of Sponsored Programs

The Office of Sponsored Programs (OSP) provides support to the faculty and staff of The University of Tennessee Health Science Center (UTHSC) in their efforts to obtain external funding in support of their scholarly endeavors, while ensuring compliance with UT policy, sponsor terms and conditions, and applicable state and federal regulation and law. OSP staff review, negotiate, and approve all proposals for grants and research contracts and operate on the frontlines of health law to negotiate with other universities, government entities, and private companies to ensure that our faculty are able to conduct their research in this competitive market. All universities that accept extramural support have a sponsored programs office (or equivalent functional area) charged with binding the university to the terms and conditions included in the applications submitted and the awards received. The office functions include proper stewardship and oversight of regulatory compliance related to the research, including ensuring human subjects safety, animal safety, and compliance with export control and biosafety regulations.

An externship with OSP would allow a student to be a part of our contracts team and learn about the art of contract negotiation and the many different types of contracts that are used for biomedical research. Some of those contract types include: clinical trial agreements, grant agreements, research collaboration

agreements, data use agreements, material transfer agreements, confidentiality agreements, and subcontracts and subawards. Training will be provided for redlining agreements, negotiating with other parties, and relevant law and policies that continually affect our contracts.
